TESTEMONY

"Avi possess incredible power of compassion which opens easily each door of our souls." Judita Ledič

»It is a wonderful journey to dance with Avi through the creation axis. I met with my resources and have courage for creation by Avi. He makes his students touch to the edges and enlarge their dreaming capacity by holding their hands courageously. Thank you for being not only my teacher but also being my camaraderie." Caglaagul Thurhan

" Dr. Avi Goren Bar is doing that with an immense insight, with tenderness and witty power of the Teacher. Providing a fantastic opening for possibilities to work on and improve ourselves. What can one get from him as a coachee, a student, attendant of the workshop? A huge opportunity to stop a never ending loop in your too tight (or to big!) shoes. Once and forever. And again, a revelation, and empowerment to do your own mission firmly, with courageous steps, without hindering and loosing time in too many sideways. Or in a swamp of your own complexes.« Tadeja Zupan Arsov

»Avi is an expert and a great lecturer, with a lot of experiences and knowledge. He is capable of presenting complex contents and brings them closer to anyone, with his passion and use of practical demonstrations. That's why his lectures are always very interesting. Andreja and Jasna, the organizers of the training program Jungian coaching (which themselves are also qualified coaches), are also very professional and are taking care for us and everything more than very well. We can learn from everyone.« Simona Stavanja Zadnik
